PAUL'S FAVORITE COLD WEATHER TRICK

THE THERMOSTATICALLY CONTROLLED OUTLET

This one is pretty cool (just don't tell Paul I think so)! It turns on the power depending on the air temp outside. On at 35 degrees and off at 45 degrees, reducing the chance for broken pipes (and think of all the power saving to boot)!

PLUG HEAT TAPE INTO THIS GUY AND BOOM! WE HAVE 3' TO 30' HEAT TAPE IN STOCK!

*Winner!
Winner!*

Hershey Kisses for Dinner!

Congratulations Charlie on the great guess!

We have one more jar of kisses for the winning, and a couple from Kassandra if you desire!

Come in and take a guess!

It's Thanksgiving Time

Being able to live on Orcas brings many reasons to be thankful this time of year. For some, the recent horrific hurricanes have brought devastation and hardships that most of us on the opposite side of the country can hardly imagine. Some in the Appalachia area who started with so little to begin with, now have **NOTHING**, and are faced with the challenge of starting over.

To help those who are struggling during this difficult Thanksgiving season, Island Hardware will be channeling our efforts to Foursquare Disaster Relief. We have chosen this organization on the recommendation of a well trusted, family-owned business we have been associated with for over 50 years. At least ninety percent of donations made to Foursquare go directly to the relief efforts.
